

Integration Service of MIREL RM2 Integrated On-Board System

Type **SESRM2**

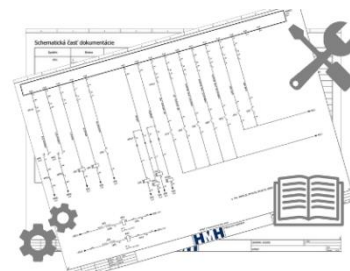

Illustrative picture

Service activities of MIREL RM2 Integrated On-Board System represent a set of activities aiming system activation and maintenance execution.

System activation service activities have been specified in 3061RM2 SESRM2.Z2 Catalogue Sheet. Service activities of prophylactic system check have been specified in 3062RM2 SESRM2.D4 Catalogue Sheet.

Service activities for execution of D3 function test and S1 service repair are primarily intended for rolling stock operators without corresponding authorizations and staff trained for execution of such activities.

Execution of S2 operational repair service activities for MIREL RM2 Integrated On-Board System is a service provided within the framework of an unscheduled system maintenance in cases, where the execution of S1 operational repair wasn't sufficient to remedy a vehicle and it is necessary to carry out internal diagnostics and a repair of any of Integrated On-Board System components or of its MIREL interacting elements.
