

Service Activities of MIREL SOL System of Protections

Type **SESSOL**

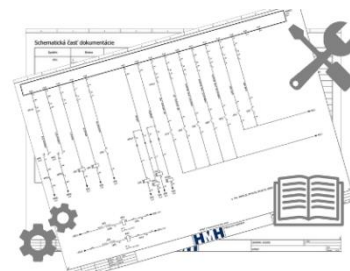

Illustrative picture

Service activities of MIREL SOL system of protections represent a set of activities aiming system activation and maintenance execution.

Activation service activities have been specified in 3063SOL SESSOL.Z2 Catalogue Sheet. Prophylactic inspection service activities have been specified in 3064SOL SESSOL.D4 Catalogue Sheet.

Service activities for execution of D3 function test and S1 service repair are primarily intended for rolling stock operators without corresponding authorizations and staff trained for execution of such activities.

Execution of S2 operational repair service activities for MIREL SOL system of protections is a service provided within the framework of an unscheduled system maintenance in cases, where the execution of S1 operational repair wasn't sufficient to remedy a vehicle and it is necessary to carry out internal diagnostics and a repair of any of protection system components or of its MIREL interacting elements.
