

Service Activities for MIREL VZ1 Train Protection

Type **SESVZ1**

Illustrative picture

Service activities for MIREL VZ1 train protection represent a set of activities aiming accomplishment of system activation and maintenance.

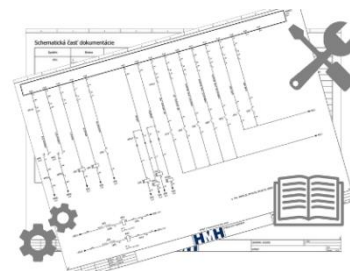

Accomplishment of system activation service activities is conditioned by successfully activated rolling stock prototype activation by staff of MIREL VZ1 train protection producer in extent of service VYSVZ1.OZI.Z1.

Execution of MIREL VZ1 system activation service activities is structured, based on activation service extent as shown below:

- basic extent
- enhanced extent

Extent of service activity follows below listed rules:

- In case that the entire system or its central unit or any of signal repeaters belonging to MIREL VZ1 central unit, or MIREL STB function port or MIREL SHPE evaluation and control unit are out of operation longer than 12 months, an activation in enhanced extent is required prior to putting system into operation.
- In other cases it is necessary to accomplish system activation service activity in basic extent.

Nomenclature

Services

Designation	Description
SESVZ1.Z2.B	MIREL VZ1 system activation in basic extent
SESVZ1.Z2.E	MIREL VZ1 system activation in enhanced extent
SESVZ1.Z2.E1	Verification of interface with ETCS on an already activated system

Prepared Services

No record.
