

# Extended Central Unit Set of MIREL VZ1 Train Protection

## Type **VZ1ZJSET**

Illustrative picture

Extended central unit set of train protection represents a compact solution for integration of train protection central unit and of interacting devices on rolling stock.

Depending on specific modification, the extended train protection set can integrate VZ1ZJ train protection central unit, converter of MIREL SPIO communication bus, MIREL STB function port as well as evaluation and control unit of MIREL SHPE system. Set is supplied as a built-in unit in a standardized 19" structural system, without cabling.

Interlinking cable set KZVZ1ZJSET.1A can be ordered additionally to VZ1ZJSET, which enables interlinking of devices within the set, as well as connecting cable set KZVZ1ZJSET.1B by means of which the set is wired to terminal panel. Available modifications of interlinking and connecting cables are part of present Catalogue Sheet.

### Nomenclature

### Modification

No record.

### Modifications prepared for new applications

Designation	VZ1ZJ	STB	SHPE	SPIO	Rack	Notes
